FAQ

How many lines do you have and what is the benefit to me?

We have a single line that supports high utilization: offline programming, multiple setups and rapid changeovers. Our customers benefit from this approach because a single line with high utilization is highly cost-efficient since you are not paying for the overhead of multiple lines that may or may not run near capacity. We do not need to seek high-volume customers to fill our schedule.

Summer is quickly arriving, and at Pro-Tech we are most definitely ready! It has been a few months since our last newsletter, so we have lots of news to inform you of.

Officially ISO 9001:2008 certified!

We recently earned this certification through Intertek for our dedication to quality in our business processes and manufacturing operations. The ISO 9001:2008 Certification is a set of standards for quality management systems maintained by the International Organization for Standardization. This proves our dedication to consistent product manufacturing and delivery to meet your highest expectations. You can read more about this [here](#).

Impact of Japan earthquake on EMS

The effect of March's disaster in Japan is still being felt all over the world. IHS iSuppli reports that 'impacts on the transportation and power infrastructure will result in disruptions of supply, resulting in short supply and rising prices'. It is expected that infrastructure challenges will slow shipments and impact prices until the third quarter of 2011. The main components impacted include;

- NAND Flash Memory
- Dynamic Random Access Memory (DRAM)
- Microcontrollers
- Standard Logic, LCD panels and LCD parts

-Discretes (i.e. MOSFETS, bipolar and small signal transistors)

Golf Season!

Here at Pro-Tech, we look forward to the summer for a number of reasons, but above all is the opportunity to get out on the green with friends and tee off! Here are some of our favorite places to Golf in the GTA:

Cardinal's award winning Red Crest golf course in Newmarket, Ontario

- [Nobleton Lakes Golf](#)
- [Wooden Sticks in Uxbridge](#)
- [Red Crest in Newmarket](#)

Thank you for reading, and we look forward to future business and friendship.

Sincerely,

Kiran Jamnadas
